FRANCHISE MODEL

1. Café Format:

Size
Typically, between 300 to 400 square feet. This size provides enough space for another swimming pool, another bathroom, and a display case for the chandelier.

Interface Design
A streamlined look that reflects the sense of a window, emphasizing overhead, horizontal, and the simplicity of chemical work. There might be an issue of being too simple, but we want to make sure that the interface can be used by the chemist and generalizing to others.

Seating: Depending on the size, seating can accommodate 8 to 12 customers. This model includes both indoor and outdoor seating if space.

Localized Marketing Research
 Along its customer relationship journey, the company, for example, has used a variety of research methods to understand its customers better. "We've used focus groups, surveys, and interviews," says the company's chief marketing officer, "but we've also used more innovative methods like ethnography, where we observe customers in their natural environment."

KISBOR is a liquid foliar fertilizer that is quickly absorbed and assimilated by the crops, rich in boron, specially developed as a source of this element. Its application stimulates the growth of cambium tissues and apical meristems, promotes calcium mobility and assimilation, and also the pollen production and fertilization. KISBOR is recommended as a complementary source of boron crops which need large inputs of this nutrient. It is also recommended for the preventive and curative control of insufficiency states due to deficiency or imbalance in the assimilation of boron.

Keep out of reach of children

Shake well before use.

INSTRUCTION: Store under cool and dry place, keep away from children, food stuff, animal feed and pets. Harmful if swallowed, inhaled or gets on skin. Wash hands thoroughly with soap and water after use.

WARRANTY: Since the use of the product is beyond our control we cannot assume any responsibility other than uniform quality of the product.
